LinkedIn • GitHub • Portfolio

SUMMARY

Computer Science (Computers & Artificial Intelligence) student at Benha University (GPA 3.7/4.0), focused on Security Operations and hands-on blue-team skills. Currently training in incident response through the DEPI Infrastructure & Security track. Publishes CTF and security-lab write-ups and delivers Python tools for freelance clients.

PROFESSIONAL EXPERIENCE

Trainee — Cyber Security Incident Response Analyst Jul 2026 – Present
Digital Egypt Pioneers Initiative (DEPI) · Infrastructure & Security track

- Hands-on training in incident response and forensics, attack techniques, and SIEM/SOC automation.

Freelance Developer — Python & Security Tools Dec 2024 – Present
Independent client work

- Built Python tools for clients: a file encryption and decryption utility for PDFs and other file types, and a media application with HEVC (H.265) video conversion.

VIGIL — AI-Assisted SOC Triage In progress
Capstone project · Wazuh · Sysmon · Python · FastAPI · Ollama

- Local SOC pipeline where an LLM turns Wazuh alerts into structured triage verdicts mapped to MITRE ATT&CK, with guardrails and analyst approval, benchmarked on precision, recall, and F1.

SIEM Detection Engineering & SOC Operations In progress
Capstone project · SIEM · SOAR · MITRE ATT&CK

- SIEM architecture and correlation rules for brute force, lateral movement, persistence, and exfiltration, plus a SOC dashboard (MTTD, MTTR) and a phishing-response SOAR playbook.

Smart Living Advisor 2024
Team project · FastAPI · React · PostgreSQL · scikit-learn

- Contributed to a full-stack AI real-estate platform with a cosine-similarity recommender and secure JWT / OAuth 2.0 authentication.

EDUCATION

B.Sc. Computer Science (Computers & Artificial Intelligence) Sep 2024 – Expected 2028
Faculty of Computers and Artificial Intelligence, Benha University | GPA: 3.7/4.0

SKILLS

Soft Skills: Analytical thinking, problem-solving, attention to detail, technical writing, teamwork, communication, time management, adaptability, fast learning
Security Operations: Wazuh, Sysmon, SIEM, alert triage, MITRE ATT&CK
Forensics & Analysis: Network, memory and malware analysis
Offensive Security: CTFs, TryHackMe, Hack The Box
Networking: TCP/IP, routing and switching (CCNA)
Programming & Tools: Python, C++, Java, SQL, JavaScript
Data Engineering: ETL, Kafka, Spark, Airflow

LANGUAGES

Arabic Native
English Intermediate

CERTIFICATES

Microsoft Data Engineer (AI & Data Science) — DEPI | Certificate Jul 2025
Astronomer Certification for Apache Airflow 3 Fundamentals | Certificate Nov 2025
CCNA Course | Instructor: Eng. Abeer Hosny | Certificate pending 2026
